MISSION SUMMARY REPORT

MISSION # 212

DATE 22 February 1945

ASSIGNMENT

1. Assigned Target: LUDWIGSLUST, GERMANY
2. Commitments: The 401st Group furnished the complete 36 A/C 94th "A" Group. Two PFF A/C were included in the lead squadron and one in each of the other two. A spare accompanied each formation.

EXECUTION

1. Target Bombed: LUDWIGSLUST, GERMANY
2. a. Group Leader: Major A. H. CHAPMAN (Brown)
 Lead Navigator: Capt. C. M. SMITH (Dresback-MO)
 Extra Navigator: F/O W. L. BRINER
 Lead Bombardier: 1st Lt. W. F. SCHIEFER
- b. Low Sqdn Leader: 1st Lt. J. W. MCGOLDRICK
 Lead Navigator: 1st Lt. L. G. LEWIS (Eaton-MO)
 Lead Bombardier: 1st Lt. G. W. PEEK
- c. High Sqdn Leader: Capt. J. P. GOODMAN
 Lead Navigator: 1st Lt. N. W. HYMAN (Barnes-MO)
 Lead Bombardier: 1st Lt. C. R. BURGE

3. Flight Over England:

a. Takeoff:

Takeoff was normal and in clear weather- all ships taking off in good order.

b. Squadron and Group Assemblies:

Assemblies were accomplished in a normal amount of time. Group assembly was moved up 2,000' to 12,000' about 15 minutes before leaving the buncher to avoid a low cloud layer that moved in. Group departed on time and on course at 12,000' with full 36 A/C formation plus three spares.

MISSION SUMMARY REPORT: (CONT)

3. c. Route Over England:

As briefed. Weather A/C recommended point A at 2,000' above briefed but this altitude had been gained in assembly already. 94th "B" and 94th "C" funneled in behind 94th "A" and a good wing formation was obtained. The 94th "A", "B" and "C" arrived at control point I on time and formed to the left of and abreast of 1st B and C groups who were 3 minutes late at control point #I.

4. Attack:

a. Flight to Target:

The 94th CBW stayed on the left of the column the entire route as 1st CBW was late. No prop wash was encountered and route was flown as briefed to CP #2. Clouds were over channel and target but a 16,000' penetration was an effective altitude. Let down was made prior to CP #2 on Buckeye recommendation. Target weather indicated a 11,000' bomb run to be necessary so a let down was begun to 11,000' in Hanover area so navigator could obtain wind. Group overshot turn at turn before IP 10 miles and could not get back on course as 94th "B" and "C" were bombing another target between our position and our briefed course. Group went in East of briefed course but seather was clear and target was picked up and bombed effectively with 36 A/C.

b. Bombing Runs:

Lead Sqdn. In trying to avoid some flak areas we got a little off course and missed the IP by about 8 to 10 miles. We unocvered, made the turn, and got on a good heading for the target. We were first in. The bombardier picked up the target, synchronized on the assigned MPI and salvoed his bombs with excellent results. All other ships salvoed on him. The AFCE worked okay.

Low Sqdn: We unocvered at the IP to make individual squadron visual runs. There were no clouds in the sky but haze restricted visibility somewhat. The bombardier had drift and the tangent preset quite accurately. As we neared the release point the bombardier saw that the lead squadron hit the MPI squarely so he changed his aiming point to a point outside of the lead's smoke and down the tracks a little. All ships salvoed. The AFCE was okay. Results were excellent.

High Sqdn: We unocvered at the IP to make an individual squadron run, visually. There were no clouds, but it was quite hazy. The bombardier used a large building short and to the right of the assigned aiming point to synchronize on because the smoke from the lead squadron obscured the assigned aiming point. He then moved the cross-hairs over to the assigned MPI but evidently not quite far enough for the bombs hit to the right and short of the assigned MPI. All ships salvoed. The AFCE was okay.

MISSION SUMMARY REPORT: (Cont)

4. c. Flight From Target:

Cloud layers at 15,000' caused the group to climb up through a thin layer to reach the top. 94th "A" group withdrew at 21,500' above overcast with 36 A/C along briefed course. Group stayed on top of overcast crossing channel but let down to 13,000'-on top.

d. Return to Base:

Camera ships and squadron leaders were dispatched to base at coast. Because of clouds over England the squadrons were ordered to separate from group and go to their stand off points. Lead squadron let down through a break east of the field and came in for a normal landing. All A/C returned safely to home base.

e. Weather:

Weather upon reaching the continent was described as 1/10ths to 5E, increasing to 3-5/10ths middle clouds at 10-12,000', breaking just before target, weather was clear with slight haze, visibility 15 to 20 miles. Light, non-persistent, contrails were encountered enroute and over target.

f. Fighter Support:

Fighter support was described as excellent during entire route.

g. Comments on Formation:

Formation was superior entire route and on bomb run left nothing to be desired.

h. Conclusions and Recommendations:

All pilots should be commended for excellent formation. Poor planning resulted in 94th CBW flying through 2nd A.D. assembly area while 2nd A.D. was in assembly process.

5. Aircraft Not Attacking:

None.

6. Enemy Opposition:

No air opposition encountered. (See Flak Report for Flak)

7. Battle Damage:

None.

8. Casualties:

None.

9. Statistical Summary of Operations: (See attached form)

MISSION SUMMARY REPORT (Cont)

10. Bombing Data:

a. Observations:

Lead Sq: Bomb strikes ~~wevered~~ the MPI in an excellent, compact pattern.

Low Sq: Bombs struck to the right of the lead squadrons in a very tight pattern.

High Sq: Bombs fell short and to the right of the lead squadron's bombs.

b. Disposition of Bombs:

Lead Sq: Of the 12 scheduled A/C EET, 11 attacked the primary target, dropping 96 X 500# RDX and 36 X 500# GP bombs. One A/C #758 dropped 12 X 500# RDX's on T. of O. (Hagenow) when bomb bay doors failed to complete circuit during run on primary. Spare A/C returned 12 GP's to base.

Low Sq: All 12 scheduled A/C EET and attacked the primary target, dropping 107 X 500# RDX and 36 X 500# GP bombs. Spare A/C returned 12 X 500# RDX bombs to base.

High Sq: 12 Scheduled A/C EET and attacked the primary target, dropping 137 X 500# RDX bombs. A/C #810 had RS2 release trouble and jettisoned 6 X 500# RDX's NW of target. Spare A/C returned its load of 12 RDX bombs to base.

c. Tabular Summary of Disposition of Bombs:

	Aircraft		Bombs
