EXECUTION

1. Target Bombed: LUDWIGSHAVEN --(Lead & Low) -- Micro - H
PFORZHEIM -- T. of O. (High) PFF

2. a. Group Leader: Major J. W. MAUPIN (Goodman)
Lead Navigator: Capt. W. E. HABERER (Fraieli -M-H Operator)

Extra Navigator: 1st Lt. P. J. KING

Lead Bombardier: Capt. W. T. HUTSON

b. Low Squadron Leader: 1st Lt. M. J. KOCHER

Lead Navigator: 1st Lt. A. R. AIMLEY (Walters - MO)

Lead Bombardier: 1st Lt. C. H. MINOTT

c. High Squadron Leader: Capt. T. R. CUSHMAN

Lead Navigator: Capt. W. R. ANDERSON (Petersen - MO)

Lead Bombardier: Capt. D. W. FESMIRE

3. Flight Over England:

a. Takeoff:

As briefed. All aircraft took off successfully.

b. Squadron and Group Assemblies:

As briefed except departure from Cottesmore buncher was four minutes late because Group Air Commander was not satisfied with progress of assembly at regular departure time.

Mission Summary Report (Cont'd)

3. c. Route Over England:

Point "C" was cut off to make up the time lost during assembly. A good wing assembly was accomplished just prior to reaching point "D". To lose time Group made double drift on way to CP # 1. Coast was departed one minute late in good formation.

4. Attack:

a. Flight To Target:

94th "C" Group was fourth in the division. Division assembly was effected at CP 1 and the group proceeded out over the channel in proper position. The flight to the target was as briefed except that deviations in briefed route were made for purpose of remaining in division formation. The IP was reached in good fashion and the group prepared for a normal M-H run.

b. Bombing Run:

Lead Squadron:

Cloud cover over the IP, target, and entire run was 10/10ths. As we turned off the IP, the Micro-H operator took over. He said he could pick up the beams very well, and killed the course and called off the rate to the bombardier, who said it checked very well with the bombsight. Bombs were salvoed by the lead when the indices met. All others used a 90 ft. intervalometer setting. The bombing was done entirely by Micro-H. The AFCE worked O. K. Results were unobserved.

Low Squadron:

The IP was made good. The ground was entirely overcast, so long before the IP the Air Commander announced blind bombing, by squadrons. The Micro-H operator killed the course. He also called off the rate check points to the bombardier. The first 2 points were fairly close. The bombardier made a fine adjustment and the last 4 checked out very well. Bombs were salvoed by the lead and dropped with a 90 ft. intervalometer setting by all others. The AFCE was O. K. Results were obscured by the clouds.

High Squadron:

The Micro-H equipment went out so a run was made on the secondary target using PFF equipment but the bombs failed to salvo so we proceeded to the last resort target. There, a PFF run was made over a solid undercast. All the work was done by the Mickey man. The leader dropped his bombs with a minimum intervalometer setting and all others used a 90 ft. intervalometer setting. The AFCE was O. K. Results were not to be seen.

c. Flight from Target:

As briefed except that double drift was made after target to pick up high squadron which had to bomb target of last resort. The division was somewhat north of course over Belgium but left continent approximately on course.

Mission Summary Report (Cont'd)

4. d. Return to Base:

As briefed. Normal stand-off procedure was accomplished and all ships landed safely at home base.

e. Weather:

Weather was described as solid undercast over the continent. Group encountered frost at enemy coast which extended 150 miles inland, tops to 27,000 ft., east of frontal area, 10/10ths low cloud prevailed, light non-persistent contrails in target area.

f. Fighter Support:

Fighter Support was adequate.

g. Comments on Formation:

Formation was generally good. The high squadron was about 2000' high over the target due to the weather--also the low was about 500' high. Interval was 2 minutes between groups.

h. Conclusions and Recommendations:

None.

5. Aircraft Not Attacking:

Lead Squadron:

A/C 42-106992 - Not Sortie. Returned early when # 2 engine started to detonate and run rough. A hot spot appeared over # 1 cylinder on cowling. Investigation revealed blown exhaust stack on # 1 cylinder of # 2 engine. (Mech)

A/C 43-38862 - Not Sortie. Could not find formation, turned around inside Belgium. (Personnel)

High Squadron:

A/C 42-107151 - Not Sortie. Returned early #1 and # 3 tubbes went out - # 1 engine rough. Inspection disclosed # 1 exhaust stack of # 1 engine blown (Mech)

A/C 42-97322 - Not Sortie. Returned early when # 2 engine cylinder head temperature reached 230°. Feathered engine--unable to stay with formation. Inspection revealed large metal particles in # 2 oil sump. (Mech)

6. Enemy Opposition:

No air opposition seen or encountered (see Flak Report for Flak)

Mission Summary Report (Cont'd)

7. <u>Battle Damage:</u>	<u>Major</u>	<u>Minor</u>	<u>To Flak</u>
	0	5	5

8. Casualties:

None.

9. Statistical Summary of Operations: (See attached form)

10. Bombing Data:

a. Observations:

Results on both targets were unobserved. However, the excellent M-H run on the primary indicates that good results should have been obtained.

b. Disposition of Bombs:

Lead Squadron:

Eleven A/C EET and bombed the primary target, dropping 108 X 500# RDX and 22 X 500# M17 IB bombs. Aborting A/C 992 and 862 each returned 10 RDX and 2 IB's to base.

Low Squadron:

All 12 scheduled A/C attacked the primary target, dropping 119 X 500# RDX and 24 X 500# IB. The spare returned 10 RDX and 2 IB's to base.

High Squadron:

Eleven A/C EET and bombed the last resort target (Pfergheim) dropping 89 X 500# RDX, 15 X 500# GP and 21 X 500# IB. A/C 012 had previously dropped 5 GP and 1 IB on the primary target. Aborting A/C 151 returned 10 RDX and 2 IB's to base. Aborting A/C 322 jettisoned 10 RDX and 2 IB's.
