Spiess, Joseph D. 1/Lt O 744 423

First Lieutenant

I am writing to you with reference to your son, the late Joseph D. Spiess. A recent investigation, conducted by the Office of The Quartermaster General and the American Graves Registration Service, has been successfully concluded with the recovery and identification of his remains. Due to the period of time which has elapsed since his death, I feel that you should be informed of the evidence upon which the identification is based.

In February of this year, remains were recovered from a small church cemetery in Wormalage, Germany, approximately ten and one-half miles north of Ruhland. Information furnished by the Parish Priest revealed that the deceased had been interred following the crash of a bomber on 19 March 1945. The grave was marked by a cross bearing the inscription, "Hier Ruhen 8 USA Soldaten in Frieden" (Here rest 8 USA soldiers in peace). Upon disinterment of the remains, they were associated with your son and his fellow crew members on the basis of an identification tag for one and laundry marks found on articles of clothing. Due to the commingled condition of the remains, it was necessary to remove them to one of our identification laboratories for examination by an accredited anthropologist and our identification technicians to effect proper segregation and identification.

The color of hair, dental pattern, estimated height, weight, and age of one of the deceased were in agreement with like data shown in your son's Army Records. These findings, in conjunction with the investigation, have resulted in the establishment of his identity. Perhaps you will be interested in knowing that the other deceased have been individually identified as the seven other members of your son's crew with whom he lost his life.

I wish to express my appreciation for your patience during the years; however, I am certain that you are cognizant of the many difficulties which were to be surmounted before any information of a definite nature could be furnished you.

The remains have been casketed and are now being held in an Army mortuary pending disposition instructions from the next of kin, either for return to the United States or for permanent burial in an overseas cemetery.

There are inclosed informational pamphlets regarding the Return of World War II Dead Program, including a Disposition Form on which you may record your desires in this matter. Upon receipt of the properly completed form, you may be assured that the Department of the Army will make every effort to comply with your instructions as indicated thereon.

In order that this Office may take immediate action toward the final disposition of the remains of your son, it is urged that you complete the inclosed form, "Request for Disposition of Remains", and mail it to this Office in the inclosed self-addressed envelope which requires no postage.

Mrs. Balthina Spiess

St. Louis, Missouri

Dear Mrs. Spiess:

I am writing you with reference to your son, First Lieutenant Joseph D. Spiess, who was reported by The Adjutant General as missing in action over Germany since 19 March 1945.

Information has been received indicating that Lieutenant Spiess was the radar operator on a B-17 (Flying Fortress) bomber which participated in a combat mission to Plauen, Germany, on 19 March 1945. The report reveals that during this mission about 2:00 p.m., over the target area, our planes were subjected to flak and your son's bomber sustained damage. Subsequently the disabled craft dropped out of formation, went into a spin, and disappeared from view. It is regretted that no other information has been received in this headquarters relative to the whereabouts of Lieutenant Spiess.

Believing you may wish to communicate with the families of the others who were in the plane with your son, I am inclosing a list of these men and the names and addresses of their next of kin.

Please be assured that a continuing search by land, sea, and air is being made to discover the whereabouts of our missing personnel. Any additional information received will be sent immediately to you by The Adjutant General or this headquarters.

Very sincerely,

E. A. BRADUNAS

Gentlemen:

Am writing to find out if I can get any information on the record you have on my son, Lt. Joseph Spiess, #0744423, a Radar Operator who was killed in Germany March 19, 1945.

I have never had the particulars from the Government, other than he was killed, and a letter would follow giving particulars. I understand you have all the records on these boys now, and the main reason I am writing, is to find out if they ever found his body and the place of burial.

Will you kindly write and let me know, if you have any information on him, as after all I am just one of those misfortunate mothers who would desire nothing more in this world than to learn where he is buried.

Thanking you very much and hoping to hear from you real soon, I am

Sincerely,

Mrs. B. Spiess

NARRATIVE OF INVESTIGATION  
Seuffenberg (M-52/L-34)

At 0930 hrs, 19 Oct 1948, the undersigned with Sgt. Altman, a Soviet escort officer from Karlsruhe and a Soviet Major with a German civilian interpreter from the Kommandatura called on Bürgermeister Hans Weiss in his office in Seuffenberg. We had asked to be taken to the Standesamt to check the Kreis records but were refused this request.

The head of the Standesamt, Max Seesthoff, was summoned. He brought no records with him but he was sure that, as far as his records were concerned, all Americans who had been buried in cemeteries in his Kreis were disinterred and taken away by American troops. He did, however, say that his records were incomplete because Allied soldiers had been buried in Kreis cemeteries and cemetery officials had neglected to furnish the Standesamt with information of all burials, especially during the latter part of 1944 and the early part of 1945.

The Soviets were not cooperative. The Bürgermeister's words were carefully checked by them. He was told that he could help us in a quiet sort of way but that there could be no Besuchsvergangen or any inquiries that would attract public attention. It appeared that the Bürgermeister wanted to help us but could do nothing under restriction for he said that our stay in his Kreis was too short to accomplish our mission; and that people or officials summoned before us would not talk. He said that he would quietly canvass his entire Kreis and that he felt sure that in two weeks he would be able to give us the exact location of any isolated graves in his area.

Accordingly all the pertinent facts in cases in Gales, Drebkau and Gr. Ranschen were given to him.

A report should be received from him in about three weeks.

# IDENTIFICATION LABORATORY REPORT

1. Search and Recovery Cases 503 thru 510 were recently recovered

from a separate plot in the cemetery at Homburg (K-52/1-25), Germany. A statement by the pastor of the church at Homburg indicates this group of eight (8) deceased were crew members of a US bomber which crashed 19 March 1945 near the village Homburg. Preliminary inspection of these remains revealed the presence of large quantities of US Air Force clothing and equipment. Date and location of crash is in agreement with available records for US A/C B-17G 44-2704 which crashed 19 March 1945 near Homburg, Germany in the vicinity of Homburg. Two (2) crew members were returned to military control and eight (8) crew members were cremated.

2. The eight (8) deceased were recovered as a mass burial and were received in a so-called condition. Identification was accomplished according to age, teeth, stigmata and markings on clothing found on sections of the remains. Three (3) were sent type 115 gravestones were found with the names "OLIVE M. HENSON", "O.E. SMITH", "JOHN W. SMITH" and "HARRY", but there is no indication in records with headstones that any of these names were cremated.

3. Pending approval of identification by OMO tentative unknown numbers for identification have been assigned those eight (8) deceased as indicated below:

4. Physical characteristics have been compared with like data on OMO forms 371 for the subject casualties as shown below:

|              | HEIGHT                         | AGE       | WEIGHT      | HAIR  | SHOE                |
|--------------|--------------------------------|-----------|-------------|-------|---------------------|
| I-9177       | (Remains) 5'-7 $\frac{1}{2}$ " | 20-21 Yrs | 160-160 Lbs | BLACK | 10 $\frac{1}{2}$ E  |
| S/Sgt ZAJICK | (Pn. 371) 5'-7"                | 20-21 Yrs | 173 Lbs     | BLACK | 10 $\frac{1}{2}$ EE |

This remains is of decidedly stocky proportions. The right leg joins the distal portion of right tibia which was removed from a size 10 $\frac{1}{2}$  E service shoe. The length of the right femur and tibia corresponds exactly with the given height for ZAJICK and the shoe size is correct. It is possible that this shoe size was actually 10 $\frac{1}{2}$  EE but the condition of the inner sole reveals only one "E". Teeth for ZAJICK were recovered from cases I-9180 and I-9184. The shattered skull articulates with the vertebral column which is complete down to and including the 9th thoracic vertebra. Subject skull and vertebrae cannot be associated with any of the other casualties.

Teeth for HOWELD are intact in the skull and mandible which were found with this remains. This remains is definitely the shortest and smallest of the group and is in agreement only with characteristics of T/Sgt HOWELD. Remnants of cotton shorts found with this case had the marking "R-938(?)" which does not agree with any of the available serial numbers for subject casualties but the "initial" agrees with HOWELD, the only casualty of this crew whose name begins with the letter "R". Subject clothing marking may represent a commercial laundry marking for T/Sgt HOWELD. Articulation of skull with vertebral column is not possible because the first and third cervical vertebrae are missing. Size and age characteristics of the skull preclude the possibility of associating this skull with any of the associated casualties where first cervical vertebrae are also missing.

| 1/Lt SPIESS | (Pn. 371) 5'-10 3/4"           | 29 Yrs        | 170 Lbs     | BROWN | 10 $\frac{1}{2}$ |

This remains is intact from the sixth thoracic vertebra down to the feet. Cotton shorts removed from around the hip area of this remains bore the marking "S-1611". 1/Lt SPIESS was the only casualty of this crew whose name begins with "S". Although the numbers of subject marking do not compare with the last four digits of either the enlisted or officer serial numbers for Lt SPIESS it is possible this is a commercial laundry marking. The estimated age based upon the intact portions of the pelvic girdle (pubic symphysis) indicates an age of approximately 30 years. This age is favorable for only two of the

subject casualty crew members, Capt. BARKALOW and 1/Lt SPIESS. Upper torso portions including thoracic vertebrae numbers 3 thru 8 identified as the upper torso of Capt. BARKALOW (by ID tags in shirt pocket and pilot wings pinned over pocket) can be articulated only with lower vertebrae in case X-9184. The fact that these upper torso portions for Capt BARKALOW cannot be associated with the intact lower torso of X-9179 is further proof that X-9179 represents the remains of 1/Lt SPIESS. Teeth for Lt. SPIESS were recovered from cases X-9180 and X-9184. The maxillary bone (with teeth) joins the skull which was one of three skulls found with X-9180. It is not possible to articulate this skull with the remains because the first three cervical vertebrae are missing.

X-9180 (Remains) 5'-9 $\frac{1}{2}$ " Aprx 23 Yrs 160-180 Lbs Brown --

1/Lt THOMAS (Fm. 371) 5'-10" 22 - 23 Yrs 176 Lbs Brown 9 $\frac{1}{2}$  E

1/Lt bar and clothing markings "T-3570" found twice on a wool CD shirt removed from this remains are in agreement with rank, initial and last four digits of serial number for 1/Lt THOMAS. The portion of wool drawers bearing the marking "X-8721" (EJICRE) was found loose with this case and not actually on the remains. Teeth for Lt. THOMAS, found with this case, join the skull and the skull articulates with the first six (6) cervical vertebrae. Subject cervical vertebrae can not be associated with any of the other casualty crew members which is additional proof that this case represents the remains of 1/Lt THOMAS.

1/Lt VANDERHUFF (Fm. 371) 6'-0" 21 - 22 Yrs 196 Lbs Brown 9 $\frac{1}{2}$  M

Skeletal portions in this case are decidedly heavy and strong which is in agreement with height and weight of Lt. VANDERHUFF. A wool shirt found with this remains had "Bombardier" wings pinned over the pocket and is in agreement with duty assignment of Lt. VANDERHUFF as indicated on the RACR for subject aircraft. A portion of wool shirt with laundry tab bearing the marking "D.L. THOMAS" found with this case is a portion of the shirt found case X-9180. Teeth for Lt. VANDERHUFF were found with this case. It is not possible to join the portion of left maxilla to the skull or articulate the mandible with the skull because portions of the skull are missing. The massive features of the mandible, however, are in agreement with like features of the skull.

X-9182 (Remains) 5'-8 7/8" 19 - 20 Yrs 120-140 Lbs Brown --

S/Sgt FAGAN (Fm. 371) 5'-8 $\frac{1}{2}$ " 20 - 21 Yrs 127 Lbs Brown 9 A

This case consists of the portions representing the youngest and proportionately smallest skeletal remains. The skull articulates with the first cervical vertebra and although several vertebrae of this column are missing there is a definite congruity which determines that all vertebrae present are for one and the same deceased. The left portion of mandible with teeth identified as those of S/Sgt FAGAN was found with this case and the articulating head of this mandible coincides more favorably with the glenoid fossa present with the skull in this case than in any of the associated cases.

| Capt JONES | (Fm 371)  | 6'-0"     | 22 - 23 Yrs | 184 Lbs       | Brown | 11-D |

This case first consisted of upper torso portions of Capt BARKALOW (confirmed by wool shirt removed with two ID tags and ID card found in pocket, pilot wings pinned over pocket, age, height and weight of skeletal portions) and lower torso portions of Capt JONES (confirmed by marking on wool drawers and size of shoes removed from feet). The right foot with size 11-D shoe was found with this case while the left foot with size 11-D shoe was found with X-9177. Each of these feet were removed from heavy wool socks with laundry tags marked "S-1988". This marking does not coincide with available casualty listings on file this headquarters. The possibility that these are the feet of 1/Lt SPIERS can be disproved by the fact that X-9179, consisting of complete lower torso with legs and portions of feet intact, has been identified as the remains of Lt. SPIERS on the basis of age, height, weight and clothing marking. In addition, the shoe size is perfect for Capt. JONES but is too large for Lt. SPIERS.

The upper torso portions of this remains were found with X-9183 and were removed from a wool shirt having two (2) ID tags and an ID card for Capt BARKALOW in the pocket. Pilot wings were found pinned over this pocket. The upper portion of vertebral column now joins perfectly with the lower portion of the vertebral column of this (X-9184) case. Teeth for BARKALOW were also removed from X-9183 and placed with this case. It is not possible to articulate the teeth with the skull or vertebral column because vertebrae and skull portions are missing. There is evidence of a healed fracture at the sternal half of the right clavicle.

5. CAUSE OF DEATH: Extremely shattered condition of the casualties and the presence of large quantities of US Air Force clothing and equipment indicate that death was caused by plane crash.

## REPORT OF EXAMINATION

On 5 February 1953 the remains of the eight (8) airmen of US nationality who crashed on 19 March 1945 were disinterred by Herr KILMANN with the permission of the Ministry of the Interior. Particular attention is invited to the fact that two of the airmen were buried beyond recognition. The bodies had been partly recovered from the wreckage. At the disinterment, it was determined that the remains were entirely intermingled and entangled and recovery operations were particularly difficult due to the location of the remains in a decomposition liquid up to approx. 20 cm depth. However, it is to be emphasized that by order of Herr KILMANN no skeletal remains and no other remains were left behind here. Even the liquid body substances at the bottom of the grave was meticulously examined by Herr KILMANN.

The remains are being evacuated with the aid of motor vehicles O.B. 015-270 to Berlin.

Dear Mrs. Spiess:

I am inclosing a check for \$20.63, representing funds of your son, First Lieutenant Joseph D. Spiess.

No other property belonging to him has been received at the Army Effects Bureau to date.

Our action in transmitting funds does not of itself, vest title in the recipient. Such property is forwarded for distribution according to the laws of the state of decedent's legal residence.

Money ordinarily is sent from overseas by mail in advance of other effects; therefore, it is probable that additional belongings of decedent will reach this Bureau at a later date. As it is intended to forward any such property to you promptly upon receipt here, I ask that you please notify this Bureau if there is a change in your address within the next few months.

I wish to express my sympathy in the loss of your son.

Sincerely,

C. E. QUINN

Mrs. B. Spiess  
4379 A Gibson Avenue  
St. Louis 10, Missouri

Dear Mrs. Spiess:

This refers to your recent inquiry regarding the personal effects of your son, First Lieutenant Joseph B. Spiess.

I am sorry to report that the Army Effects Bureau has not yet received any of his property. It is reasonable to assume, however, that his belongings ultimately will reach here, as all War Department agencies have instructions to forward the personal effects of military personnel to this Bureau for disposition. Transportation delays generally are encountered in delivery of effects, and considerable time should be allowed for the return of property from overseas.

Promptly upon receipt here of any of your son's belongings, disposal action will be taken.

Yours very truly,
