3. Flight Over England:

a. Takeoff:

Made during daylight hours- weather conditions were favorable and takeoff was accomplished with little trouble. A/C proceeded individually to assigned assembly point over the continent.

MISSION SUMMARY REPORT (Cont)

3. b. Squadron and Group Assemblies Over Continent:

Group assembled over the continent at assigned position essentially as briefed with but one exception. Clouds were encountered at assembly altitude when the lead A/C arrived and decision was made to start assembly 4 miles SW of assigned. As group formed clouds moved to north and group drifted over to assigned position. Group left assembly point one minute early in order to follow 94th "B" properly who along with "A" was assembling over same point but at different altitudes and had each left one minute early. Route to CP #3 was as briefed with this group forming in proper position as 94th "C" behind 94th "B".

4. Attack:

a. Flight to Target:

Flight to target was uneventful as weather conditions were ideal. Weather scouting force reported target conditions as "Visual Excellent" so three squadrons fell in trail just before IP to prepare for a visual bomb run.

b. Bombing Run:

Scouting force called that bombing would be visual. The group uncovered just before the IP and prepared for a visual bomb run. No difficulties were experienced and the target was identified without any trouble. C-1 was used with all ships salvoing. Results were observed to be good.

c. Flight from Target:

Group reformed at first turning point after target and continued on route out in group formation. Route as far as position and altitude were concerned was as briefed. Weather again gave no trouble to formation.

d. Return to Base:

Return to base was made at 3,000' by the lead squadron and the high and low went to their respective stand-off points. All ships landed safely at home base.

e. Weather:

Weather Was CAVU enroute and over target- same on route out.

f. Fighter Support:

Very good.

MISSION SUMMARY REPORT (Cont)

4. g. Comments on Formation and Interval:

Group formation was very good. Interval between 94th "C" and "B" was a little to great until GP #3 where interval closed to proper distance.

h. Conclusions and Recommendations:

Mission can be considered as being entirely successful with conditions being most ideal. No recommendations.

5. Aircraft Not Attacking:

A/C 43-38565 - No Credit. Turned back 5 miles west of Sarrbrucken. Oil and smoke started coming out of cowling. Feathered #1 engine, pulled 2400RPM- 44" for 3 minutes. Mechanical failure #8 piston, #1 engine. (Mech)

6. Enemy Opposition:

No enemy air opposition seen or encountered. (See Flak Report for Flak)

7. Battle Damage:

None.

8. Casualties:

None.

9. Statistical Summary of Operations: (See attached form)

10. Bombing Data:
