MISSION SUMMARY REPORT

MISSION # 107

DATE 14 February 1945

ASSIGNMENT

1. Assigned Target: DRESDEN, GERMANY
2. Commitments: The 401st Group furnished the complete 36 A/C 94th "A" Group. Two Pff A/C were included in the lead squadron and one in the high squadron. A spare accompanied each squadron.

EXECUTION

1. Target Bombed: DRESDEN, GERMANY (PFF with VIS)
2. a. Group Leader: Lt. Col. E. W. BROWN (Riegler)
 Lead Navigator: Capt. H. D. WOOD (Strong-MO)
 Extra Navigator: 1st Lt. J. D. HURLEY
 Lead Bombardier: Capt. H. W. MEADVILLE
- b. Low Sqdn Leader: 1st Lt. R. S. HAYES
 Lead Navigator: 1st Lt. C. B. MINOR
 Lead Bombardier: 1st Lt. R. W. MURPHY
- c. High Sqdn Leader: 1st Lt. H. E. HASKETT (Pfund)
 Lead Navigator: 1st Lt. A. C. WILHELM (Bradfute-MO)
 Lead Bombardier: 1st Lt. E. K. STOUT

3. Flight Over England:

a. Takeoff:

Takeoff was delayed somewhat by one ship which had a flat tire on the perimeter track. Aside from this mishap takeoff was normal. (Takeoff was set back one hour from original briefed time)

MISSION SUMMARY REPORT: (c)

3. b. Squadron and Group Assemblies:

Squadron and group assemblies were delayed because of the ships held up by the flat tire which occurred at takeoff. However, the group was assembled and departed Cottesmore on time.

c. Route Over England:

As briefed with the exception of the route between point D and point E. A big "S" to the left was undertaken on this leg to lose a little time and to avoid the 41st "C" group, which was considerably behind time. 94th "A" fell in behind 41st "C" and continued out over the channel in briefed 10th position in Division column.

4. Attack:

a. Flight to Target:

As briefed with the following exceptions: it was necessary to gain an extra 500' to clear the tops of dense cirrus clouds which were prevalent along the whole route; the low squadron was ordered to take a high left position in the group. Some meagre flak was encountered at about 51° 10'N-10° 40'E, but was avoided by evasive action. The IP was reached very satisfactorily and as "Buckeye" suggested blind bombing, the group proceeded to bomb as a unit.

b. Bombing Run:

Cloud cover was solid over the IP and the first $\frac{1}{2}$ of the bomb run so we made a PFF run on the secondary target. The bombing was done in group formation. On the last half of the run there were just a few breaks in the clouds (about 9/10ths coverage) so the Bombardier was able to make a visual assist. The mickey man killed all the drift and gave the bombardier the clutch in point for an approximate rate. The Bombardier could see the city through a break in the clouds so he refined the rate and salvoed the bombs when the indices met. All others used a 140 foot intervalometer setting. The AFCE was good. Results were unobserved.

c. Flight From Target:

There were several deviations from briefed route to avoid flak i.e. in the Frankfurt area, and one deviation near Ostende when the group cut to the right to shorten the route. The latter deviation was made to save gasoline.

d. Return to Base:

Return to home base was normal. Two A/C found it necessary to land on the continent because of gas shortage - one returned immediately, and A/C 42-102468 the following day. All crews safe.

MISSION SUMMARY REPORT: (con)

4. e. Weather:

8/10-10/10ths cirrus base 16,000' tops 27,000' lay~~ered~~ entire route in. Visibility unrestricted above clouds. Dense persistent contrails above 18,000' were encountered both enroute and at target area.

f. Fighter Support:

Excellent.

g. Comments on Formation:

Formation was good in the individual squadrons. The group formation was rather loose because of the poor weather and dense persistent contrails.

h. Conclusions and Recommendations:

The importance of making times good over England cannot be over-emphasized. The 41st Wing was about four minutes late which caused confusion at Division assembly.

5. Aircraft Not Attacking:

Lead Sq: A/C 44-8648 - Not Sortie. Returned early when right front oxygen system started leaking. Oxygen regulator found to be defective.

A/C 44-6313 - Not Sortie. Returned early when radio operator became sick. Hospital reports ulcer of right septum bleeding freely.

Low Sq: A/C 42-107039- Not Sortie. Spare A/C which filled in returned early when #2 engine began running rough. Upon return metal particles were found in sump plug and cuno.

High Sq: A/C 42-97322 - Sortie. Failed to drop bombs when bomb bay doors failed to open. Returned bombs.

6. Enemy Opposition:

No air opposition seen or encountered (See flak report for flak)

7. Battle Damage:

| <u>Major</u> | <u>Minor</u> | <u>To Flak</u> |
|--------------|--------------|----------------|
| 1 | 4 | 5 |

8. Casualties:

None.

9. Statistical Summary of Operations: (see attached form)

MISSION SUMMARY REPORT (Co.)

10. Bombing Data:

a. Observations:

Bombfall believed to be good, although unobserved. Smoke bombs of preceding groups were concentrated within approximately 100 yards and our release point coincided closely with them.

b. Disposition of Bombs:

Lead Sqdn: A total of 11 A/C EET and attacked the secondary target, dropping 53 X 500# RDX, and 43 X 500# IB and 12 X 500# GP bombs. A/C 132 jettisoned 1 RDX and 1 GP at 5057-1356E. Aborting A/C 648 and A/C 313 returned 12 RDX and 8 IB bombs.

Low Sqdn: All 12 scheduled A/C EET and bombed the secondary target, dropping 72 X 500# RDX and 48 X 500# IB bombs. Spare A/C 039, after filling, aborted and jettisoned 6 RDX and 4 IB's.

High Sqdn: Of the 12 scheduled A/C EET, eleven attacked the secondary target, dropping 62 X 500# RDX, 44 X 500# IB and 4 X 500# GP bombs. A/C 322 could not open its doors and returned 6 RDX and 4 IB's to base. The spare returned 6 X 500# RDX and 4 X 500# IB bombs to base.

c. Tabular Summary of Disposition of Bombs:

| | Aircraft | | Bombs | | | |

14 February 1945

SUBJECT: Crew Comments and Suggestions on Mission to Dresden, 14 Feb 45.

TO : Commanding Officer, Station 128, APO 557, U.S. Army.

1. Lt. Alfred R. Grims, Pilot A/C 8810, stated that High Squadron was too close in altitude and Low Section of his High Squadron could not get in proper formation.

2. Lt. Frederick E. Babcock, Pilot A/C 7780, stated that he took off and had to return for a ground spare. Had to call tower twice for landing instructions and circled twice before landing causing him to almost miss formation on account of delay.

3. Lt. John S. Cole, Jr., Pilot A/C 7802, reported that flux gate compass on his aircraft has been "out" on last 7 missions.

4. Lt. E.A. Baker, Pilot A/C 8458, reported that ball turret on A/C IN B (8132) was not operating from 1315 to 1430 hours.

5. Lt. Charles J. Tarr, Navigator A/C 8637, stated that he has found briefing room passes on two occasions. Turned in a 613th Sq. pass found on Navigators briefing room table.

6. The following criticisms on transportation were reported:

a. Lt. Ralph S. Hayes, Pilot A/C 1891 and crew - Squadron transportation before mission has been exceedingly bad for last 7 missions.

b. Lt. Allen D. Aschenbach, Pilot A/C 8882 and crew - Could not get transportation this morning. Has been bad every morning.

OFFICE OF THE INTELLIGENCE OFFICER

U. S. ARMY

D-K-1

MEMORANDUM:

14 February 1945

TO: Commanding Officer, station 128, APO 557, U.S. Army.

The following are versions submitted by two crews flying on today's mission to Dresden, Germany concerning their experiences with 4 fighter aircraft observed while returning from target area.

1. 1st Lt. Russell B. Thompson, Pilot A/C 8646 and crew:

At 1325 hours, (5023-0952E - D/R fix) altitude 23,000 feet, 4 fighter aircraft resembling P-51's came in from 4:30 o'clock level starting at about 2,000 yards. Had been high making wide sweeps over bomber stream. Pointed noses at our aircraft and came in to approximately 400 yards, but did not fire. These aircraft had no wing tanks and appeared to have radial engines and came in 4 abreast. Ball turret, right waist and tail gunners fired warning bursts at these aircraft at approximately 600 yards and aircraft then broke upwards. They were not silvery but dirty looking and no Allied insignias were observed. Woodcraft Charlie Leader had previously announced "bandits". (A/C 8646 was lead of High Flight of Low Squadron and this crew has completed 20 missions).

2. 2nd Lt. David H. Stauffer, Pilot A/C 8677 and crew:

At approximately 1325 hours, (5014-0835E - Gee fix) altitude 23,500 feet, 4 fighter aircraft believed to be P-51's made pursuit curve at our High Box at 6 o'clock level, started at approximately 1,000 yards and came in within 200 yards. Did not fire at our aircraft and were observed to have a US insignia (star) on wings. Cowling was black and rudders appeared to have been red. This aircraft did not fire but were ready to do so when aircraft broke upwards. This crew reported that fighter aircraft were echeloned to right and stacked up.
